

Temporary Noise Solutions - Project Profile

Client: Public Transport Authority - WA
Site: Prism Alliance - Burswood
Location: Western Australia
Product: Soundex Noise Barriers

The challenge: Mitigation of noise created by cabling works near a high density residential area.

The solution: TNS supplied 95 noise barriers which were used to separate the noisy activities from roadside residences.

The result: The client received very positive feedback from residents as both noise was reduced and the visual impact of the works was minimized.
